Department of Public Works Directors Report – Director Harker
Director Harker provided a report to the Borough Clerk who read the following into the record:
"*Below is a summary of our recent storm response operations: Our DPW team worked a 20-hour shift on Sunday. After a brief 6-hour break, the crew returned this morning and will continue working tonight. All Borough roads were cleared curb-to-curb four times. Additionally, all Borough sidewalks were cleared, and the team dedicated four hours to clearing school sidewalks. Throughout the storm, all daily sewer system maintenance operations were successfully managed as well. This work was completed by a staff of only seven people. Please note that several areas were difficult to clear because cars were not moved and residents shoveled snow back into the street. We were required to replow these sections to ensure road safety. A single pass through the Borough takes 4 to 5 hours; therefore, operations continue long after the snow stops. While we understand the frustration of having driveways or sidewalks plowed in, it is necessary to maintain safe travel and prepare for the next storm forecast for this weekend. Clean-up will continue throughout the week to remove piles from corners and narrow areas. Plowing operations remain consistent with the high standards we have maintained for over 40 years. Our roads are frequently cited by outside agencies as some of the best in the state, and we are proud to report no*

equipment damage or injuries during this event. I would like to thank the Neptune City Fire Department for providing food and hydration to our crew. We also appreciate the many residents who shared kind words and support on social media". As provided by Director Harker. The Clerk added there was an incident where a member of our Public Works team was deliberately hit with a shovel full of snow through their open vehicle window as they are removing snow, with the resident stating he knew the window was open and did it on purpose because of how the roads were being plowed.

Mayor McGreevy shared her disappointment that the incident happened, noting she has had complaints directed at her, but the compliments outweigh the complaints. Mayor McGreevy encouraged residents to reach out for help if they are unable to clear on their own. Mayor McGreevy encouraged residents to keep an eye out on how to help each other, further thanking Director Harker and his team for their long hours and efforts.

9. MAYOR'S REPORT - Mayor Rachel McGreevy

Mayor McGreevy acknowledged the new members on the body who bring new perspective and voices and have returning members. The Borough runs for election by political parties, but as far as the Governing Body is concerned, they are the Party of Neptune City. Mayor McGreevy shared the Governing Body is looking forward to 2026 where new processes will be implemented to improve transparency and accountability while maintaining the Open Public Meeting Act standards. Mayor McGreevy detailed the 2026 Budget planning process. There will also be collaborative meetings. The Borough will be proactively planning for employee changes.
