WHEREAS, the Borough of Neptune City is required to annually adopt a Cash Management Plan; and

NOW THEREFORE BE IT RESOLVED , by the Governing Body of the Borough of Neptune City that the 2025 Cash Management Plan is hereby adopted.

Borough of Neptune City
2025 Cash Management Plan

William E. Antonides, Jr. CPA, RMA, CMFO
Chief Financial Officer
Wayne M. Sibilia, CPA, RMA, CMFO
Assistant Chief Financial Officer
Albert Jardine, CTC
Tax Collector

I. OBJECTIVE

This Cash Management Plan (the "Plan") is prepared pursuant to the provisions of N.J.S.A. 40A:5-14 to set forth the basis for the deposits ("Deposits") and investment ("Permitted Investments") of certain public funds of the Borough of Neptune City ("Borough") pending the use of such funds for the intended purposes. The Plan is intended to assure that all public funds identified herein are deposited in interest bearing Deposits or otherwise invested in Permitted Investments hereinafter referred to. The intent of the Plan is to provide that the decision made with regard to the Deposits and the Permitted Investments will be done to ensure the safety, the liquidity (regarding its availability for the intended purposes), and the maximum investment return within such limits. The Plan is intended to ensure that any Deposit or Permitted Investment matures within the time period that approximated the prospective need for the funds deposited or invested so that there is not a risk to the market value of such Deposits or Permitted Investments.

The Cash Management Plan is intended to act as a summary of cash management activities to be undertaken by the various municipal departments, which handle cash to ensure maximum cash availability and maximum investment yield on idle Borough cash. The Borough wishes to manage cash efficiently from the time revenue is earned until the time an expenditure payment clears the bank. The overriding goals of the cash management system are to maximize availability and maximize yield. The first goal is met by decreasing time lags from the earning of revenue until it is converted to cash and by timing expenditures to be made on their due dates, not before or after. The second goal is achieved by maximizing investment yield on cash between its collection and disbursement.

The administrative staff of the Borough exists to provide services to its citizens for which it must collect tax and fee revenue. Effective cash management will operate within the constraints of the purpose of government. Cash should not be maximized at the expense of paying vendors late or alienating taxpayers with intimidating collection procedures. Similarly, yield should not be maximized at the expense of other goals. Where conflicts exist between the two primary goals of the cash management policy, the Borough will put a higher priority on cash availability than yield as the cash management system shall ensure that cash is available to support municipal operations.

The Borough shall comply with all laws and regulations concerning municipal cash management. All municipal funds will be deposited in a manner by which they will be protected under Governmental Unit Deposit Protection Act (GUDPA) regulations. The Borough will comply with directives from the New Jersey Department of Community Affairs, Division of Local Government Services and the Local Finance Board concerning cash management.

The Borough will work to increase non-tax revenues by keeping idle funds in interest bearing accounts. The Borough Finance Department will monitor and project cash flows and schedule expenditure plan accordingly as well as maintaining familiarity with the short-term investment market.

II. PROTECTION OF BOROUGH ASSETS

Cash management is a form of risk management in that any time the Borough earns revenue, makes an investment, or commits to an expenditure, it incurs a certain amount of risk. The Chief Financial Officer must recognize and minimize the Borough's exposure to four distinct types of risk:

Default risk - Default risk applies mainly to investments but could also apply to basic checking accounts. Default risk is the risk that some or all of the principal amount of an investment or account will not be available due to default by the issuer, securities dealer or broker, bank or other financial institution. Default risk is best avoided by carefully screening investment dealers and banks for potential default problems and by limiting investments to those instruments which are least likely to default. Should a default occur, the Borough will take all recourse actions available through deposit insurance, regulatory and legal systems. It should be noted that no municipality has ever lost funds as a result of a banking default when the funds were protected under GUDPA.

Market Risk - Market risk is the risk that, while the Borough holds an investment instrument, changes in the financial markets reduce the value of the investment. In extreme cases, the market value may fall below the principal amount invested by the Borough. If the Borough sells the investment before it matures, part of the principal will be lost. The Borough's only recourse would be to hold the security until either the market rebounds or it matures, repaying both the face value and the interest. The Borough can protect against market risk by avoiding instruments which are subject to rapid market swings and by investing with the intent to hold all instruments to maturity. The Borough will not invest in instruments that could result in a loss of principal value.

Reputational Risk - An offshoot of the other forms of risk, reputational risk is the risk that the Borough will lose stature by making a cash management mistake. Few events are more damaging to a government's prestige and potential than a well-publicized investment loss. While the most common cause is loss of principal due to default, the Borough's reputation may also be damaged by overzealous collection processes or by late payment of expenditures. Reputational risk may cause long-term harm to the government as citizens question the management capability of both elected officials and the professional staff. A poor reputation may also discourage vendors and potential new businesses and residents from working with or locating in the Borough.

Collection Risk - There can be a significant difference between revenue earned and revenue collected. Nonpayment of taxes, fees, and fines poses a risk that resources budgeted and treated in the accounting system as if they were received may never actually appear. There is also a strong "word of mouth" factor. If individuals seem to "get away" without paying large amounts in fines, fees or taxes, many others will try this technique. The Borough must protect itself against collection risk by utilizing aggressive collection procedures.

III. LIQUIDITY

Idle cash is only idle and available to invest until it is needed to pay employees or invoices. An important objective of an effective cash management plan is to time investments to that they mature at the same time they are needed to meet these obligations. If they mature too early, the Borough will lose interest earnings, if they mature too late, the Borough risks a potential problem of liquidity. The Borough must strive to guarantee liquidity by carefully forecasting expenditures; determining if each upcoming expenditure obligation is "covered" by cash on hand, incoming revenue, or maturing investments; and timing investments to meet the next "uncovered" obligation. A margin for unexpected expenditures is allowable and expected.

IV. FINANCIAL REPORTS

The Borough shall utilize the encumbrance system as outlined in the Borough of Neptune City Purchasing Manual. The basis of said manual shall be to comply with all purchasing regulations governing the abilities of the Borough of Neptune City. The Borough shall utilize Requisitions, Purchase Orders and Voucher forms with signatures required from Department Heads. The Borough shall encumber funds for contracts and purchase orders once they are approved. The Borough shall pay all invoices in accordance with the terms of same. Payments are not to be made late nor earlier than required by said terms. The Borough shall utilize a centralized purchasing system and maintain a comprehensive fixed assets inventory.

The Borough Cash Management Plan shall be provided to all elected officials of the Borough of Neptune City as well as all appointed officials who are affected by same. In addition, all depositories shall be provided with a copy of the plan and shall provide written acknowledgement of same. The written acknowledgement shall include an understanding that the presumptive liability is placed upon the financial institution as it relates to wire transfers and ACH payments.

The Tax Collector will be responsible for preparing daily cash receipt reports and submitting same to the Fiscal Officer for cash forecasting and tracking information. The Tax Collector will maintain an annual analysis of taxes receivable and reports detailing all adjustments, tax sale information and assignments.

V. DEBT MANAGEMENT

The Chief Financial Officer shall maintain an analysis of all debt authorized but not issued, recommend cancellations of authorization balances no longer needed, recommend re-appropriation of authorization balances no longer needed for their intended use, maintain an analysis of grants receivable for capital improvement projects, handle all facets of bond and bond anticipation note

issuance, ensure that the Borough remains in compliance with arbitrage regulations and that an annual analysis and report are compiled concerning arbitrage.

VI. AUDIT AND REVIEW

All employees will work with the Borough auditing firm to ensure a thorough and accurate audit review. The Chief Financial Officer shall arrange an Audit Exit Conference with Borough Auditor and prepare a Corrective Action Plan in response to any audit comments or recommendations. The Corrective Action Plan will be submitted to the Borough Committee for approval and submitted to the Division of Local Government Services in accordance with regulations concerning the same.

VII. OPERATIONAL CASH MANAGEMENT OBJECTIVES

1. Increase non-tax revenue when it is not needed for current obligations
   - A. Where possible, schedule due dates for licenses during the first three months of the calendar year.
   - B. Schedule contractual payments to be made monthly
2. Keep idle funds working even at a lower interest rate when necessary
   Invest all available monies in overnight investments such as the New Jersey State Cash Management Fund or an interest-bearing investment account.
3. Understand present cash flow
   Cash flow projections shall be evaluated monthly and project the following 3 months
4. Estimate pattern of future cash flows
   - A. The Borough is aware that major cash flow periods occur within the General Account during the first ten days of each tax paying period. The Borough Sewer Operating Account is most active during the thirty-day collection periods established. The Borough Pool Utility Account is most active during the summer months.
   - B. The Borough shall schedule payments and obligations in a manner such as most obligations that can be scheduled will be made after a period of increased collections as described above.
5. Identify and become familiar with the short-term money market. The Borough will maintain analysis of available investment terms at the point that each investment decision is made. Where practical, the Borough shall invest in the product that is most beneficial to the Borough both by yield and availability. The Borough shall maintain a relationship with all the brokers, dealers, bank officers and investment officials outlined in the cash management resolution adopted annually by the Borough Committee.
6. Bidding specifications for banking relationships shall be adopted to compare banking practices when deemed necessary or appropriate.
   The Chief Financial Officer shall maintain an analysis of banking proposals and information concerning the basis for which a banking relationship has been established.
7. The Borough of Neptune City shall project a knowledgeable image to the banking firms with which it established relationships. A knowledgeable cash manager will gain the respect of banking officers who will work harder to offer conditions desirable to the Borough.
   The Chief Financial Officer shall handle all relationships with bank officers, with the exception of day-to-day transfers and routine banking methods.
